

Seminars Pharmacy Programme

Prof. Raghad Al Nuss
Assistant Professor
Arab International University
Syrian Arab Republic

1. A comparative study of main approaches for stabilizing amorphous drugs
November 15th, h 14.00 (Tecnologia Farmaceutica e Normativa dei Medicinali)
2. Application of nanotechnology in cosmetics
November 14th, h 11.00 (Tecnologia dei Prodotti Biotecnologici, Veterinari e Dispositivi Medici)

UNIVERSITÀ DI PAVIA

Seminars

Industrial Nanobiotechnologies for Pharmaceuticals Programme

Prof. Raghad Al Nuss
Assistant Professor
Arab International University
Syrian Arab Republic

1. A comparative study of main approaches for stabilizing amorphous drugs
Polymer-based glass solutions (polymeric amorphous solid dispersions)
Solid dispersions
November 14th, h 9.00 (Preformulation and Pharmaceutical Technology - Pharmaceutical Technology)
2. A comparative study of methods used for dissolution rate enhancement:
Inclusion complexes
November 13rd, h 9.00 (Preformulation and Pharmaceutical Technology - Pharmaceutical Technology)

UNIVERSITÀ DI PAVIA
